Choosing to be an Education Major in New York is a great investment. The demand for qualified educators is on rise and this trend is not likely to change anytime in the near future. According to the Bureau of Labor Statistics Occupational Outlook Handbook, "Employment of school teachers is expected to grow by 12 percent between 2006 and 2016 — about as fast as the average for all occupations. However, because of the size of the occupations in this group, this growth will create 479,000 additional teacher positions, more than all but a few occupations." As an Education Major in New York, whether you're interested in working as a professor or elementary school teacher, a special education instructor or corporate trainer you're sure to find a career in education extremely rewarding.
